

**N. RAMESH**  
Managing Director

**SAHARA** is leading supplier of **Bio products**, **Bio fertilizers**, **Organic products**, **Micro nutrients**, **100% water soluble** and **Pesticides**. **Sahra Agri Products pvt ltd** owns specialized manufacturing and marketing platform of all agriculture finished products exclusively India. We provide good quality at competitive prices. **Sahara** focus on Research and Development. For Creating smiles in Indian agriculture system with new thoughts, we always think farmer should success is our success.

*Sahara Agri Products Pvt. Ltd*

## Sahara Tejas SP

- ✓ Tejas SP helps in establishment of Crop with strong Root System
- ✓ Tejas SP gives high Number of Branches
- ✓ Tejas SP provides Effective and Increased Flowering, Fruit Size and Ultimately higher yields with good Quality

**Crops:** Cotton, Chillies (Red & Green), Paddy, Red gram, Bengal gram, Greengram, Citrus, Mango and other Fruits and All Vegetables

**Dosage:** 150 gms per 1 Acre

**Pack Size** 300gm, 150gm, 50gm

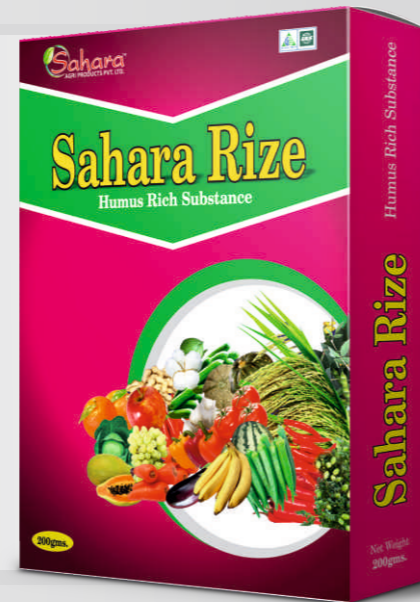

## Sahara Rize

- ✓ Sahara Rize will establish strong Root System
- ✓ Sahara Rize Gives high number of Effective Tillers in Paddy
- ✓ Sahara Rize Provides Fully filled and Shiny Grains in the panicles of all Tillers in Paddy
- ✓ Sahara Rize increases yield in Paddy.

**Application of Sahara Rize** in Other Crops like Cotton, Chillies (Red & Green) Redgram, Bengalgram, Greengram, Citrus, Mango and other Fruits and All Vegetables gives good Branches with full Flowering & Fruit Development along with Superb Quality and Quantity of Yield.

**Dose:** Soil Application: 200 gm/ac. can be mixed with Sand or Fertilizers then applied to crops  
**Foliar Spray:** 100 gm/ac.

**Pack Size** 400gm, 200gm, 100gm, 50gm

## Sahara More

- ✓ Sahara More Provides Excellent Crop Growth with Strong Root System.
- ✓ Sahara More gives Effective and full Flowering with great Fruit Setting with increased size of the Fruit
- ✓ Sahara More increases the Quantity & Quality of the Yield.
- ✓ Sahara More is Derived From Plant Extracts, so crop will not show any damage to Natural Enemies of Insects and Other Beneficial Insects.
- ✓ Sahara More is Compatible with all Products applied on Crops

**Dosage:** 250gms per 1 Acre

**Pack Size** 1kg, 500gm, 250gm

## Sahara Grand

- ✓ Sahara Grand improves strengthens entire root system when applied to soil
- ✓ Sahara Grand enhances absorption of applied fertilizers and available nutrients from the soil
- ✓ Sahara Grand Boosts up the development of branches for higher Photosynthesis Activity
- ✓ Sahara Grand escalates uniform Growth and Development of Crop hence, uniform in flowering, fruiting and Maturity.
- ✓ Sahara Grand shows Excellent results in Cotton, Chillies, Paddy, Maize, Pulses, Sugarcane, Wheat Potato, Tomato, Flower Crops, Fruits & Vegetables and all Horticultural Crops like Mango, Citrus, Banana, Apple, Papaya, Grapes etc.,

**Dose:** 2 kg/ac can be mixed applied with sand or fertilizers

**Pack Size** 1.5kg, 100gm

## Shara Gold

- ✓ Sahara Gold develops the Growth of Root System
- ✓ Sahara Gold promotes high number of Branches with full strength resulted in more number of Flowers and Fruits
- ✓ Sahara Gold magnify the yield both Qualitatively and Quantitatively
- ✓ Compatible with all pesticides
- ✓ Sahara Gold is Safer for Beneficial insects and other organisms
- ✓ Sahara Gold very effective and proved in Cotton, Chillies, Paddy, Maize, Pulses, Flower Crops, Fruits & Vegetables and all Horticultural Crops like Mango, Citrus, Banana, papayaetc, Tea and Coffee

**Dose:** 200 to 300 ml/ac.

**Pack Size** 400ml, 200ml

## Sahara Speed

- ✓ Sahara Speed Enhances Growth of Root System
- ✓ Sahara Speed promotes number of branches and gives Uniform growth and development of the crop
- ✓ Sahara Speed increases Good Flowering and Fruit Setting
- ✓ Sahara Speed reduces Flower & Fruit Drop and hence higher yields
- ✓ Sahara Speed raises the Quality of the Yield also
- ✓ Sahara Speed can be applied on all crops
- ✓ Sahara Speed compatible with all pesticides

**Dose:** For foliar application 100 ml/ac., For Drip application 200 ml/ac.

**Pack Size** 200ml, 100ml

## Sahara Diamond

- ✓ Sahara Diamond very helpful in Establishment of Root system
- ✓ Sahara Diamond increases number of tillers
- ✓ Sahara Diamond gives Uniform growth of the crop
- ✓ Sahara Diamond helps in make use of applied fertilizers by increasing soil structure
- ✓ Sahara Diamond is very suitable to Paddy, Maize, Sugarcane, Banana, Papaya, Grapes, Cotton, Chillies, Tomato, Brijjal, Bhendi and other Fruits and Vegetable

**Dose:** 5-10 kg/ac.

On Paddy 2 applications are required

First application: 15 days after transplanting for strong root system

Second application: 30 days after transplanting for maximum tillering

On other Crops Basal dose along with fertilizers and second application at the time of first top dressing.

**Pack Size** 50Kg, 30kg, 10kg, 5kg

## Sahara Amino Gold

- ✓ Sahara Amino Gold Enhances Photosynthesis activity of the Crop
- ✓ Sahara Amino Gold Penetrates in the plant translocation system and facilitate high number of branches
- ✓ Sahara Amino Gold Provides good flowering and fruit setting
- ✓ Sahara Amino Gold reduces flower drop and fruit drop and hence higher and quality yield
- ✓ Sahara Amino Gold is compatible with pesticides and promotes fast absorption of the same through leaf to give good control of insects and diseases
- ✓ Sahara Amino Gold suitable for all Cereal crops, Chillies, Cotton, Pulses, Fruits and Vegetables.

**Dose:** 2.5 to 3 ml/Lt of water for foliar spray and 500-600 ml/ac. Through drip application

**Pack Size** 1000ml, 500ml, 250ml

## Sahara Humic

- ✓ Sahara Humic Provides Improved Metabolism of the plant by increasing nutrient supply within the plant and from soil to plant
- ✓ Sahara Humic strengthens entire crop with uniform flowering and fruit setting and growth and development
- ✓ Sahara Humic accelerates the size number of fruits by arresting the flower and fruit drop
- ✓ Sahara Humic enhances the effect of applied pesticides when sprayed in combination
- ✓ Sahara Humic is suitable for all Cereals, Pulses, Cotton, Chillies, Fruits and Vegetable Crops.

Dose: 2.5 to 3 ml per Lt of water for foliar spray and 500-600 ml under drip application

Pack Size 1000ml, 500ml, 250ml

## Sahara King

- ✓ Sahara King is specially designed for all Commercial Crops and Fruits & Vegetables
- ✓ Sahara King helps in increasing Photosynthesis activity in crops hence, increases the Metabolism to strengthen the crop in all aspects
- ✓ Sahara King boost up Uniform growth and development
- ✓ Sahara King uphold the good flowering and fruit setting
- ✓ Sahara King hastens the effectiveness of applied pesticides and helps in loss by evaporation or by rain wash
- ✓ Sahara King is proved on Chillies, Cotton, Paddy, Black gram, Red gram, Ground Nut Mango, Citrus, Flower Crops, Tomato, Brinjal, Bhendi etc.

Dose: 500 ml/ac. Foliar Spray 1 to 2 Lt/ac through Drip Irrigation based on stage of the crop

Pack Size 20Litre, 10Litre, 5Litre, 1Litre, 500ml, 250ml

## Sahara Glory -n

- ✓ Sahara Glory-N helps in increasing Photosynthesis activity in crops hence, increases the Metabolism to strengthen the crop in all aspects
- ✓ Sahara Glory-N increases good flowering and fruit setting
- ✓ Sahara Glory-N gives Uniform growth and development
- ✓ Sahara Glory-reduces flower drop and fruit drop and hence, increases yield both quantitatively and qualitatively.
- ✓ Sahara Glory-N promotes the use of applied pesticides and helps in loss by evaporation and by rain wash
- ✓ Sahara Glory-N compatible with all pesticides

Dose: Foliar Spray 2.5 ml / Lt of water.

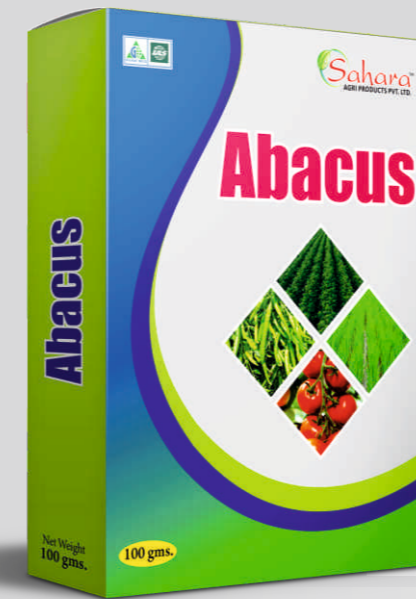

Pack Size 1000ml, 500ml, 250ml

## Sahara Curator

- ✓ Sahara Curator develops stimulates mechanism of Resistance against Diseases in major Crops
- ✓ Sahara Curator Penetrate in entire plat when sprayed and gives full protection
- ✓ Sahara Curator increases yield quantity and quality due to healthy growth of the crops
- ✓ Sahara Curator can be used in combination of other pesticides
- ✓ Sahara Curator consists of safer formula by which zero damage can be observed
- ✓ Sahara Curator Is safe for beneficial organisms hence, suitable in IPM practices against pests and diseases of majority of Paddy, Chillies, Mango, Grapes, Apple Flower Crops and other Fruits and Vegetables.

Dose: 2.5 ml / Lt of water. Crop should be full covered with spray solution

Pack Size 1000ml, 500ml, 250ml

## Sahara Abacus

- ✓ Sahara Abacus is a Bio Stimulant derived from Natural Extracts
- ✓ Sahara Abacus increases tolerance by increasing immunity against major diseases of major crops.
- ✓ Sahara Abacus controls diseases like Blasts in Paddy, Dieback in Chilli, Leaf spots in Pulses, Groundnut, Vegetable crops and Fruit Rot in other crops.
- ✓ Sahara Abacus promotes photosynthesis activity by controlling diseases in the crops.
- ✓ Sahara Abacus enhances quantity and quality of the yield
- ✓ Sahara Abacus helps in Shining of fruits and grains in Paddy and other cereal crops
- ✓ Sahara Abacus is widely applied on Paddy, Chilli, Pulses, Groundnut, Tomato, Brinjal, Potato and other Vegetables and Horticultural Crops like Mango, Grapes etc.,

Dose: 2 gm / Lt of water

Pack Size 200gm, 100gm

## Sahara Perfect-gr

- ✓ Sahara Perfect-Gr is a special soil application granular Bio Stimulant extracted from Natural Derivatives
- ✓ Sahara Perfect-Gr induces by stimulating resistance against Stem Borer, Leaf folder, Grubs and other Soil Insect pests
- ✓ Sahara Perfect-Gr promotes growth and development of crops and hence, helps in uniform maturity of the crops
- ✓ Sahara Perfect-Gr is safer to Natural Enemies like Predators and Parasites of the insect pests.
- ✓ Sahara Perfect-Gr reduces the pesticides cost on crops

Crops: Paddy, Chillies, Maize, Sugarcane, Brinjal, Jasmine and other Fruits and Vegetable Crops

Dose: 4 to 6 Kg / ac.

Pack Size 4kgs

## Sahara Cargo

- ✓ Sahara Cargo is a Natural Bio Stimulant
- ✓ Sahara Cargo promotes Immunity against many insect pests in many crops by its stimulation activity.
- ✓ Sahara Cargo reduces the damage by Leaf Folder and Stem bores in paddy and hence higher yields are resulted
- ✓ Sahara Cargo controls the damage of fruit and shoot bores in Brinjal by offering resistance to the insect pest
- ✓ Sahara Cargo provide resistance against insect pests of Mango, Jasmine and Roses, Brinjal etc.,
- ✓ Sahara Cargo increases yields of when used in the crops both qualitatively and quantitatively.

Crops: Paddy, Brinjal, Cotton, Sugarcane and other crops

Dose: 250 to 350 ml /ac Foliar application

Pack Size 1000ml, 500ml, 250ml

## Sahara Topper

- ✓ Sahara Topper a Biostimulant for enhancing the immunity against Brown Plant Hopper and Green Leaf Hopper in Paddy, Green Leaf Hopper and White Fly in Cotton and Chillies.
- ✓ Sahara Topper helps in greater Photosynthesis activity by securing the crop canopy in the crops
- ✓ Sahara Topper is safer to Beneficial insects and predators & Parasites of pests
- ✓ Sahara Topper is compatible with other pesticides and other spray molecules

Crops: Paddy, Cotton, Chillies, Brinjal, Mango, Citrus and other Crops

Dose: 250 to 330 ml /ac

Pack Size 1000ml, 500ml, 250ml

## Sahara Rock

- ✓ Sahara Rock derived Bio Stimulant and hence, very safe to crops
- ✓ Sahara Rock develops resistance against Brown Plant Hopper and Green Leaf Hopper in Paddy and Green Leaf Hoppers and White fly in Cotton and Chillies
- ✓ Sahara Rock is safer to Natural enemies of Insect pests and fits in IPM programme.
- ✓ Sahara Rock increases the ultimate yield of the crop by reducing damage by the pests

Crops: Paddy, Cotton, Chillies, Brinjal, Mango etc.,

Dose: 100 gm/ac. Crop should be thoroughly covered with Spray Solution even at the base of the plant.

Pack Size 100gm, 50gm

## Sahara Samrat

- ✓ Sahara Samrat is an IPM product since it is a derivative of Plant and Botanical Extract for stimulation of plant mechanism
- ✓ Sahara Samrat is very effective against Brown Plant Hopper and Green Leaf Hopper
- ✓ Sahara Samrat develops the Immunity in to crop against pests with specialized process
- ✓ Sahara Samrat is safer to Natural Enemies of pests hence it well befitted in IPM concept

Crops: Paddy, Cotton, Chillies, Brinjal etc.,

Dose: 50 gm/ac.

Pack Size 50gm

## Sahara Power

- ✓ Sahara Power is derived from plant and Botanical extracts to stimulate growth and immunity mechanism
- ✓ Sahara Power enhances Immunity in Paddy against Brown Plant Hopper and Green Leaf Hopper
- ✓ Sahara Power Protects the crop by the damage of BPH and hence increased Photosynthesis activity is observed through which grain weight and uniform maturity is attained
- ✓ Sahara Power since an extract from plants gives full protection to Natural enemies of pests
- ✓ Sahara Power is well suited in IPM concept and also supports in balanced metabolism of the crop to give higher and quality yields

Crops: Paddy.

Dose: 60 gm of Sahara Power and 60 gm of Additive is to be mixed well to make 150 Lts of water which should be sprayed to ONE acre of Paddy crop from top to base of the tillers for effective control. In case of heavy incidence of BPH 0.8 to 1.0 gm of each Sahara Power and Additive can be used together per ONE Liter of water

Pack Size 60gm + 60 gm

## Sahara Locker

- ✓ Sahara Locker a naturally derived Bio Stimulant
- ✓ Sahara Locker is designed to increase immunity in Paddy Crop against Brown Plant Hopper and Green Leaf Hopper
- ✓ Sahara Locker create mechanism that damage of BPH through induced Resistant due to which expenditure on protection is greatly reduced and a gateway for higher yields
- ✓ Sahara Locker gives protection in Cotton, Chillies and Brinjal with several Sucking pest Complex
- ✓ Due to controlled pest damage uniform growth and uniform maturity are attained in the crop

Crops: Paddy, Cotton, Chillies and Brinjal

Dose: 50 gm/ac.

Pack Size 50gm

## Sahara Remedy (Paddy Special)

- ✓ Sahara Remedy is a Paddy Special Bio Stimulant.
- ✓ Sahara Remedy provides resistance against Leaf Folder and Stem borer of paddy
- ✓ Sahara Remedy is an excellent naturally derived product results higher yields by controlling the pests of Paddy
- ✓ Sahara Remedy can also be used in crops like Mango, Jasmine, Roses and all vegetable crops in addition to Paddy

Dose: 1 ml/Lt of water

Pack Size 1000ml, 500ml, 250ml

## Sahara Elixer

- ✓ Sahara Elixer is a naturally derived Bio Stimulant to stimulate all activities to increase immunity
- ✓ Sahara Elixer induces Resistance in many crops against Sucking Pest Complex like Thrips, Mites and Whiteflies
- ✓ Sahara Elixer penetrates into entire plant system through leaf surface and provides full protection
- ✓ Sahara Elixer when applied improves Photosynthesis activity of leaves hence, uniform growth and maturity are observed
- ✓ Sahara Elixer plays a key role in increased yields with the best quality

Crops: Chillies, Mango, Citrus, Tomato, Brinjal, Bhendi, Onion and other Vegetable Crops

Dose: 250 to 300 ml/ac.

Pack Size 1000ml, 500ml, 250ml

## Sahara Exofine

- ✓ Sahara Exofine is a naturally derived Bio Stimulant
- ✓ Sahara Exofine offers excellent Immunity to plants against many sucking pests
- ✓ Sahara Exofine very effective against Mite, Thrips and other sucking pests
- ✓ Sahara Exofine being a naturally derived product, it is safer to natural enemies of pests
- ✓ Sahara Exofine increases quality and quantity of the yield by providing uniform growth and maturity as it is having stimulant action
- ✓ Sahara Exofine is cost effective product hence, expenditure of crop protection will be considerably reduced

Crops: Cotton, Chillies, Brinjal, Bhendi, Tomato Onion, Black gram, Green gram, Mango, Citrus, Grapes Jasmine, Roses and other vegetable crops

Dose: 2 to 2.5 ml/Lt of Water

Pack Size 1000ml, 500ml, 250ml, 100ml, 50ml

## Sahara Rim Zim

- ✓ Sahara Rim Zim is a derivative of Natural Bio Stimulant
- ✓ Sahara Rim Zim is specially designed to develop and stimulate immunity against many sucking pests of major crops
- ✓ Sahara Rim Zim is very effective against Mites, Whiteflies, Green Leaf Hoppers and other sucking pests as it is easily get absorbed into the plant.
- ✓ Sahara Rim Zim is safer to Natural enemies of the pests so, fits in IPM strategies
- ✓ Sahara Rim Zim is compatible with other chemicals

Crops: Cotton, Chillies, Brinjal, Bhendi, Tomato Onion, Black gram, Green gram, Mango, Citrus, Grapes Jasmine, Roses and other vegetable crops.

Dose: 250 to 300 ml/ac.

Pack Size 1000ml, 500ml, 250ml

## Sahara Rado-RRR

- ✓ Sahara Rado is a Bio Stimulant and derivative of natural extracts
- ✓ Sahara Rado interacts with plant metabolism and profoundly develops resistance against Sucking pests like Thrips, Mites, Whiteflies etc., and Larval Pests of Spodoptera, Heliothis Sp, Fruit & Shoot Borers, Stem Borers, Loopers & Semi loopers and many diseases loopers.
- ✓ Sahara Rado shows extra ordinary growth of Lateral Branches, Flowering and Fruiting
- ✓ Sahara Rado is safer to Predators and Parasites of different stages of crop pests.
- ✓ Sahara Rado can be augmented in package of practices of IPM
- ✓ Sahara Rado results in high quantity of yields with good quality
- ✓ Sahara Rado is very Cost Effective as it avoids other sprays on the crops

**Crops:** Chillies, Cotton, Paddy, Sugarcane, Maize, Brinjal, Bhendi, Tomato, Mango, Citrus, Grapes, Red gram, Black and Green gram, Bengal gram, Soyabean, Jasmine, Roses and other Fruits and Vegetable Crops.

**Dose:** 250+250+250 ml / ac ( all 3 packs are available in a single pack )

**Pack Size** 500ml, 250ml, 100ml

## Sahara Champion

- ✓ Sahara Champion is a Naturally produced Biostimulant, induces greater immunity in many crop plants
- ✓ Sahara Champion protects the crop plants against Mites, Thrips, Whiteflies and other Sucking Pests
- ✓ Sahara Champion is safer in Environment and hence, it can be recommended in the practices defined for IPM
- ✓ Sahara Champion very useful in reducing the Spraying cost as it is compatible with othr pesticides of all kind which influences in reduction of number of sprays
- ✓ Sahara Champion generate higher yields with high quality.

**Crops:** Cotton, Chillies, Onion, Cumin, Brinjal, Bhendi, Mango, Citrus, Jasmine, Roses and other Fruits & Vegetable Crops.

**Dose:** 250 to 300 ml / ac.

**Pack Size** 1000ml, 500ml, 250ml

## Sahara Champion

- ✓ Sahara Defence is a naturally derived Bio Stimulant.
- ✓ Sahara Defence induces immunity against Mites of all types, Thrips, Whiteflies, Green Leaf hopper and other sucking pests with increased stimulant action
- ✓ Sahara Defence shows very fast acting ability as get translocated in plant system and covered very thoroughly
- ✓ Sahara Defence is safer to Predators and Parasites of the pests
- ✓ Sahara Defence well suits in Integrated Pest Management Practices
- ✓ Sahara Defence is a instrumental one in increasing the yields by controlling the pests
- ✓ Sahara Defence is compatible with all pesticide and other chemicals

**Crops:** Cotton, Chillies, Brinjal, Bhendi, Mango and other Fruits and Vegetable Crops

**Dose:** 250 to 300 ml / ac.

**Pack Size** 1000ml, 500ml, 250ml

## Sahara Thunder

- ✓ Sahara Thunder is derived from the inputs which available in Nature with enumerable stimulant properties
- ✓ Sahara Thunder provides protection from all larval stages of Spodoptera sp., Heliothis Sp. and other larvae and Mites which harbours many crops
- ✓ Sahara Thunder provides control of multiple pest complex with single spray
- ✓ Sahara Thunder reduces the spraying cost and protects the crop from damage by different pests in short duration
- ✓ Sahara Thunder is very safe to Natural Enemies and hence, fits in IPM practices.
- ✓ Sahara Thunder gives uniform growth and development of the crop

**Crops:** Cotton, Chillies, Brinjal, Bhendi, Tomato, Bengalgram, Redgram, Blackgram, Soyabean, Groundnut and Vegetable crops.

**Dose:** 2 to 2.5 ml / Lt of water

**Pack Size** 1000ml, 500ml, 250ml

## Sahara Rolex

- ✓ Sahara Rolex provides a repellent action layer on the leaves of crop when sprayed
- ✓ Sahara Rolex derived with the aim of continuous stimulation during entire crop development
- ✓ Sahara Rolex reduces the damage by Red Mite, White Mite and other sucking pests by inducing self-protective mechanism in plants
- ✓ Sahara Rolex activates full growth and development of all plat parts due to which plant metabolism hastened to produce full flowering and fruiting
- ✓ Sahara Rolex bring out qualitative yield with good quantity
- ✓ Sahara Rolex is suggested in IPM system due to its repellent action to Sucking pest complex

**Crops:** Chillies, Cotton, Onion, Brinjal and other crops

**Dose:** 100 ml + 100 gm per acre.

**Pack Size** 100 ml + 100 gm

## Sahara Organ

- ✓ Sahara Organ is a naturally derived product to promote stimulation through improved metabolism of the crop plant
- ✓ Sahara Organ will increase natural growth and development of the plants of which increased photosynthesis activity with higher vigour
- ✓ Sahara Organ induces increased flowering uniformly on plant
- ✓ Sahara Organ reduces flower drop for high number of fruit setting
- ✓ Sahara Organ is compatible with other chemicals
- ✓ Sahara Organ is safer to natural enemies and predators of the pests and diseases it can be strategized in IPM

**Crops:** Chillies, Cotton, Pulses, Tomato, Brinjal, Bhendi, Mango Citrus and other fruits and Vegetables

**Dose:** 30 gm per ac.

**Pack Size** 60gm, 30gm

## Sahara Anti-vs

- ✓ Sahara Anti-VS is a Naturally Derived Plant Bio Stimulant
- ✓ Sahara Anti-VS induces greater Immunity in crop plants which protects from Thrips, Mites and other sucking pest complex
- ✓ Sahara Anti-VS protects the crop from all types of viral diseases as it shows effective control of vector pests like Thrips and Mites
- ✓ Sahara Anti-VS propels greater regenerative mechanism in the sprayed crops and gives rise to new and fresh vegetative growth
- ✓ Sahara Anti-VS is compatible with other pesticides and hence, spray cost is drastically reduced

**Method of Spray:** Add 2.5 ml with 1.5 gm of additive in One litre of water and spray the solution covering entire plant thoroughly and 2 nd spray should be given after 10 to 15 days to see maximum control of the disease

**Crops:** Chillies, Cotton, Citrus, Onion, Vegetables and other crops.

**Dose:** 250 ml+ 150 gm

**Pack Size** 250ml + 150 gm

## Sahara Virocure

- ✓ Sahara VIROCURE is a Naturally Derived Bio Stimulant
- ✓ Sahara VIROCURE induces greater Immunity in crop plants which protects from Thrips, Mites and other sucking pest complex
- ✓ Sahara VIROCURE protects the crop from all types of viral diseases as it shows effective control of vector pests like Thrips and Mites
- ✓ Sahara VIROCURE propels greater regenerative mechanism in the sprayed crops and gives rise to new and fresh vegetative growth
- ✓ Sahara VIROCURE is compatible with other pesticides and hence, spray cost is drastically reduced

**Method of Spray:** Add 2.5 ml with 1.5 gm of additive in One litre of water and spray the solution covering entire plant thoroughly and 2 nd spray should be given after 10 to 15 days to see maximum control of the disease

**Crops:** Chillies, Cotton, Citrus, Onion, Vegetables and other crops.

**Dose:** 250 ml+ 150 gm

**Pack Size** 250ml + 150 gm, 125ml + 75gm

## Sahara Varnam

- ✓ Sahara Varnam is derived from Natural Extracts to stimulate all metabolic activities in crop plant
- ✓ Sahara Varnam sprayed crop develops natural Resistance mechanism
- ✓ Sahara Varnam protects the crop from Spodoptera Sp( Tobacco Caterpillar ) Heliothis Sp (Gram Caterpillar) Semi Looper and all types of Mites,]
- ✓ Sahara Varnam is compatible with all pesticides
- ✓ Sahara Varnam greatly reduces the spray cost to the farmers as one product gives rise protection from caterpillars and Mites at a time
- ✓ Sahara Varnam facilitates uniform growth, flowering and maturity on all crops and hence results in higher yields with good quality

**Crops:** : Cotton, Chillies, Brinjal, Tomato, Bhendi, Redgram, Bengalgram, Black and Green gram, Ground Nut and other vegetable crops

**Dose:** 1ml + 1 ml per one Lt of water.

**Pack Size** 100 ml, 50 ml

## Sahara Ryno

- ✓ Sahara Ryno is a Naturally derived Bio Stimulant
- ✓ Sahara Ryno sprayed crop develops natural Resistance mechanism
- ✓ Sahara Ryno protects the crop from wide range of pests like Spodoptera Sp( Tobacco Caterpillar ) Heliothis Sp (Gram Caterpillar) Semi Looper and all types of Mites,
- ✓ Sahara Ryno is compatible with all other pesticides
- ✓ Sahara Ryno greatly reduces the spray cost to the farmers as one product gives rise protection from caterpillars and Mites at a time
- ✓ Sahara Ryno facilitates uniform growth, flowering and maturity on all crops and hence results in higher yields with good quality

**Crops:** cotton, Chillies, Brinjal, Tomato, Bhendi, Red gram, Bengal gram, Black and Green gram, Ground Nut and other vegetable crops.

**Dose:** 1ml + 1 ml per one Lt of water

**Pack Size** 100 ml, 50gm

## Sahara Prince

- ✓ Sahara Prince is a Naturally derived Biological Stimulant.
- ✓ Sahara Prince sprayed crop develops natural Resistance mechanism
- ✓ Sahara Prince gives protection the crop from wide range of pests like Spodoptera Sp (Tobacco Caterpillar) Heliothis Sp (Gram Caterpillar) Semi Looper and all types of Mites,
- ✓ Sahara Prince is compatible with all other Insecticides and Fungicides
- ✓ Sahara Prince cost effective to the farmers as one product gives rise protection from caterpillars and Mites at a time
- ✓ Sahara Prince facilitates uniform growth, flowering and maturity on all crops and hence, results in higher yields with good quality

**Crops:** Cotton, Chillies, Brinjal, Tomato, Bhendi, Red gram, Bengal gram, Black and Green gram, Ground Nut and other vegetable crops.

**Dose:** 1ml + 1 ml per one Lt of water

**Pack Size** 100 ml, 50 ml

## Sahara Sriram 999

- ✓ Sahara Sriram 999 a Bio Stimulant derived from Natural extracts
- ✓ Sahara Sriram 999 induces increased immunity in crops when sprayed
- ✓ Sahara Sriram 999 provides strong protection from Whiteflies, Green Leaf Hopper, Thrips , Mites and other Sucking pests of the crops
- ✓ Sahara Sriram 999 is compatible with other Insecticides and Fungicides
- ✓ Sahara Sriram 999 escalates photosynthesis activity in entire plant with new flush of leaves for uniform growth and development of the crops

**Crops:** Chillies, Cotton, Mango, Citrus, Tomato, Brinjal, Bhendi, Grapes ,Onion, Cumin and other Fruits and Vegetable Crops

**Dose:** 250 to 300 ml / ac.

**Pack Size** 1000ml, 500ml, 250ml, 100ml

## Sahara Remedy (Citrus Special)

- ✓ Remedy Citrus Special is a specific product for plant protection practices of all Citrus Species like Lemons, Sweet Oranges, Sweet Lemon, Acid Lime, Tangerines, Kinnow, Manderines and other varieties.
- ✓ Remedy Citrus Special controls Canker Diseases of leaves, twigs and fruits to get quality yield
- ✓ Remedy Citrus Special Corrects the nutrient deficiencies of Zinc, Iron, Manganese and other
- ✓ Remedy Citrus Special creates a safety mechanism in metabolism of the plant to produce higher yields also

**Crops:** All Citrus Varieties

**Dose:** 1 to 1.5 ml / Lt of water.

**Pack Size** 1000ml, 500ml, 250ml

## Sahara Dozer

- ✓ Sahara Dozer is a naturally derived product from Datura Seeds and other plant-based Bio Stimulant.
- ✓ Sahara Dozer repels the feeding habits and egg laying activities of insect pests like Spodoptera Sp, Heliothis Sp and other larvae on major commercial crops
- ✓ Sahara Dozer well fits in the practices of IPM
- ✓ Sahara Dozer is a safest product for natural enemies like predators and parasites of the pests.
- ✓ Sahara Dozer an Eco Friendly product from Sahara

**Crop:** Cotton, Chillies, Brinjal, Bhendi, Tomato, Soybean, Redgram, Black and Green gram, Bengalgram, Groundnut, Onion, Jasmine, Roses and other Fruits and Vegetable Crops

**Dose:** 1 to 1.5 gm / Lt of Water.

**Pack Size** 1kg, 500gm, 250gm, 100gm, 50gm, 10gm

## Sahara Korandi

- ✓ Sahara Korandi is a naturally derived Bio Stimulant.
- ✓ Sahara Korandi instigates and develops plant metabolic system for Immunity against Insect Pests
- ✓ Sahara Korandi is a safest product for Natural enemies of many insect pests and suits in practices of IPM
- ✓ Sahara Korandi protect the crop from major Larval pests like Spodoptera Sp, Heliothis Sp, Semi Loopers, Fruit and Shoot Borer, Stem Borers, Leaf Folders and other pests
- ✓ Sahara Korandi plays vital role in reducing spraying cost to farmers by providing Higher Yields with excellent Quality

**Crops:** Paddy, Cotton, Chillies, Red gram, Black and Green gram, Bengal gram, Groundnut Soybean, Maize, Tomato, Brinjal, Bhendi, Onion and other Fruits and Vegetable Crops.

**Dose:** 1 ml / Lt of Water.

**Pack Size** 500ml, 250ml, 120ml, 60ml, 30ml, 10ml

## Sahara Audi

- ✓ Sahara Audi is a natural Bio Stimulant.
- ✓ Sahara Audi instigates and develops plant metabolic system for Immunity against Insect Pests
- ✓ Sahara Audi is a safest product for Natural enemies of many insect pests and suits in practices of IPM
- ✓ Sahara Audi protect the crops from major Larval pests like Spodoptera Sp, Heliothis Sp, Semi Loopers, Fruit and Shoot Borer, Stem Borers, Leaf Folders and other pests
- ✓ Sahara Audi plays vital role in reducing spraying cost to farmers by providing Higher Yields with excellent Quality

**Crops:** : Paddy, Cotton, Chillies, Red gram, Black and Green gram, Bengal gram, Groundnut Soybean, Maize, Tomato, Brinjal, Bhendi, Onion and other Fruits and Vegetable Crops.

**Dose:** 1 ml / Lt of Water

**Pack Size** 120ml, 60ml, 30ml, 10ml

## Sahara Nice 120

- ✓ Sahara Nice 120 is a naturally derived product for Stimulant Activity.
- ✓ Sahara Nice 120 instigates and develops plant metabolic system for Immunity against Insect Pests
- ✓ Sahara Nice 120 is a safest product for Natural enemies of many insect pests and suits in practices of IPM
- ✓ Sahara Nice 120 results in Uniform Growth, Development and Maturity of the Crops
- ✓ Sahara Nice 120 protect the crops from major Larval pests like Spodoptera Sp, Heliothis Sp, Semi Loopers, Fruit and Shoot Borer, Stem Borers, Leaf Folders and other pests
- ✓ Sahara Nice 120 plays vital role in reducing spraying cost to farmers by providing Higher Yields with excellent Quality

**Crops:** : Paddy, Cotton, Chillies, Red gram, Black and Green gram, Bengal gram, Groundnut Soybean, Maize, Tomato, Brinjal, Bhendi, Onion and other Fruits and Vegetable Crops.

**Dose:** 120 ml per ac.

**Pack Size** 120ml

## Sahara Miracle

- ✓ Sahara Miracle a Bio Stimulant intended to increase plant immunity against Larvae of Spodoptera & Heliothis Sp., Fruit & Shoot Borers, Bud Worms, Loopers & Semi Loopers and all types of Mites in major crops
- ✓ Sahara Miracle is safer to Natural Enemies & Predators and Parasites of Insect Pests and can be recommended in IPM practices
- ✓ Sahara Miracle is very Cost Effective as it is giving protection to crops from many pests at a time
- ✓ Sahara Miracle is compatible with other pesticides

**Crops:** : Paddy, Cotton, Chillies, Red gram, Black and Green gram, Bengal gram, Ground nut Soybean, Maize, Tomato, Brinjal, Bhendi, Onion and other Fruits and Vegetable Crops.

**Dose:** 2 to 2.5 ml / Lt of Water.

**Pack Size** 125ml

## Sahara Atanic

- ✓ Sahara Atanic is a Bio Stimulant Naturally derived from Biological Extracts
- ✓ Sahara Atanic induces Resistance against many major Larval Pests like Spodoptera, Heliothis Sp, Semi Loopers and Fruit and Shoot borers
- ✓ Sahara Atanic promotes uniform growth and development as it protects the crop from pests and hence, results in higher yields with greater quality
- ✓ Sahara Atanic can be mixed with other insecticides and Fungicides.

**Crops:** Cotton, Chillies, Red gram, Black and Green gram, Bengal gram, Groundnut Soybean, Maize, Tomato, Brinjal, Bhendi, Onion and other Fruits and Vegetable Crops.

**Dose:** 1 ml of Sahara Atanic per 1 Lt of Water

**Pack Size** 250ml, 100 ml, 50ml, 25ml, 10ml

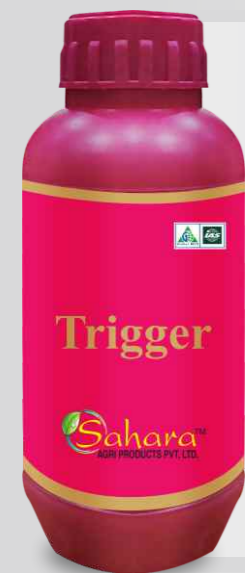

## Sahara Jargon

- ✓ Sahara Jargon is a Natural Bio Stimulant
- ✓ Sahara Jargon develops remarkable Resistance through induced immunity in crop plants against Spodoptera & Heliothis Sp., Fruit and Shoot borers, Semi loopers and other larval pests even budworms etc.,
- ✓ Sahara Jargon Plus develops the plant metabolism in such a way that results higher of Sprayed Crops by effective protection
- ✓ Sahara Jargon is compatible with other insecticides and fungicides hence, farmer cost on protection reduces to great extent
- ✓ Sahara Jargon contributes to higher yields with good quality of the produce
- ✓ Sahara Jargon is safe to environment product so, can be a part of IPM practices

**Crop:** Paddy, Cotton, Chillies, Red gram, Black and Green gram, Bengal gram, Ground nut Soybean, Maize, Tomato, Brinjal, Bhendi, Onion and other Fruits and Vegetable Crops.

**Dose:** 2 ml / Lt of Water.

**Pack Size** 1000ml, 500ml, 250ml, 120ml, 60ml,

## Sahara Trigger

- ✓ Sahara Trigger is a Biological Stimulant derived from Natural Sources
- ✓ Sahara Trigger Develops immunity against Larvae of Spdoptera, Heliothis Sp, Fruit & Shoot Borers, Larvae and grubs host in Flower Buds, Semi loopers and other Pests of many Crops
- ✓ Sahara Trigger is compatible with Insecticides and Fungicides
- ✓ Sahara Trigger promotes the mechanism in crops for high yields both qualitatively and Quantitatively by protecting the crops from the pests

**Crops:** Paddy, Cotton, Chillies, Red gram, Black and Green gram, Bengal gram, Ground nut Soybean, Maize, Tomato, Brinjal, Bhendi, Onion and other Fruits and Vegetable Crops.

**Dose:** 2 to 2.5 ml / Lt of Water.

**Pack Size** 1000ml, 500ml, 250ml, 100 ml, 50ml,

## Sahara Trigger Plus

- ✓ Sahara Trigger Plus is a Biological Stimulant
- ✓ Sahara Trigger Plus bring on the remarkable Resistance through induced immunity in crop plants against Spodoptera & Heliothis Sp., Fruit and Shoot borers, Semi loopers and other larval pests even budworms etc.,
- ✓ Sahara Trigger Plus prompts higher results of Sprayed Crops by effectively protection
- ✓ Sahara Trigger Plus is compatible with other insecticides and fungicides hence, farmer cost on protection reduces to great extent
- ✓ Sahara Trigger Plus contributes to higher yields with good quality of the produce
- ✓ Sahara Trigger Plus is an Eco-Friendly product so, can be a part of IPM practices

**Crops:** Paddy, Cotton, Chillies, Red gram, Black and Green gram, Bengal gram, Ground nut Soybean, Maize, Tomato, Brinjal, Bhendi, Onion and other Fruits and Vegetable Crops.

**Dose:** 2 to 2.5 ml / Lt of Water.

**Pack Size** 1000ml, 500ml, 250ml, 125 ml, 50ml,

## Sahara Move

- ✓ Sahara Move a Bio Stimulant intended to increase plant immunity against Larvae of Spodoptera & Heliothis Sp., Fruit & Shoot Borers, Bud Worms, Loopers & Semi Loopers in major crops
- ✓ Sahara Move is safer to Natural Enemies & Predators and Parasites of Insect Pests and can be recommended in IPM practices
- ✓ Sahara Move is very Cost Effective as it is giving protection to crops from many pests at a time
- ✓ Sahara Move is compatible with other pesticides

**Crops:** Chillies, Cotton, Brinjal, Bhendi, All Pulses like Black gram, Green gram, Red gram, Bengal gram, Soybean, Maize, Jasmine, Roses and other Fruits and Vegetable crops

**Dose:** 2.5 ml / Lt of water

**Pack Size** 1000ml, 500ml, 250ml

## Sahara Potent

- ✓ Sahara Potent is a naturally derived Bio Stimulant
- ✓ Sahara Potent is safer to Natural enemies of pests
- ✓ Sahara Potent is an Eco-friendly product and hence, can be recommended in the practices of IPM
- ✓ Sahara Potent gives rise to immunity in plants against Larval Pests like Spodoptera & Heliothis SP, Loopers & Semi Loopers, Fruit and Shoot Borers and other larval insect pests
- ✓ Sahara Potent is Compatible with many insecticides and fungicides
- ✓ Sahara Potent bring down the pkant protection cost by offering effective control of targeted pests.

**Crops:** : Brinjal, Bhendi, Chillies, Cotton, All Pulses like Black gram, Green gram, Red gram, Bengal gram, Soybean, Maize, Jasmine, Roses and other Fruits and Vegetable crops

**Dose:** 2.5 ml / Lt of water

**Pack Size** 500ml, 250ml

## Sahara Super Duper

**Super** is made from medicinal seed extracts for natural farming. It contains the compounds which act as Insect and fly repellents. It does not allow harmful insects to lay eggs on plants and causing them to stop eating, mating and laying eggs. Plant tissues will absorb these extracts, making the entire plant effective in repelling destructive insects and improves plants self defending mechanism. By enhancing plant cover it induces profound flowering thus increasing the quality and yield. Increased flowering results in increased fruiting resulting in a better yield.

**Duper** is a water Soluble Organic Product & make crop healthy by enhancing good growth. Duper is Combination of natural L-Amino Acids. High purity, good bacteriological stability. Non - Hazardous, Nonpoisonous. Completely biodegradable. Excellent compatibility with pesticides with nutrients. Duper means to increase yield and overall quality of crops. Duper contains fundamental ingredients in the process of protein Synthesis thus amino acids can directly or indirectly influence the physiological activities of the plant. It helps in improving the micro flora of the soil there by facilitating the assimilation of nutrients.

**Recommended Crops** : Chiles, Cotton, Paddy, Pulses, Mangos, Citrus, Groundnuts, Jasmine, Roses, Tomato & other Vegetables.

**Dosage** : 250ml + 250ml per Acre

**Pack Size** 1000ml, 500ml, 250ml, 100ml

## Sahara Seethal

- ✓ Sahara Seethal is a produced form Naturally available plant extracts and effective Bio Stimulant
- ✓ Sahara Seethal Enhances immunity against many diseases occur in major crops grown.
- ✓ Sahara Seethal Safeguards the crops from Leaf Blast, Nodal Blast and Neck Blast in Paddy and other diseases in all Fruit and Vegetable Crops
- ✓ Sahara Seethal Increases the yields in Paddy and other crops both in Quality and Quantity by securing the crops from many kinds of diseases
- ✓ Sahara Seethal is safer to environment and proved as an Eco- Friendly one
- ✓ Sahara Seethal is compatible with other Insecticides and Fungicides .

**Crops**: Paddy, Maize, Chillies and many Vegetable Crops.

**Dose**: 250 ml / ac. Crop should be thoroughly covered with spray solution

**Pack Size** 1000ml, 500ml, 250ml, 125 ml, 50ml,

## Sahara Polite

- ✓ Sahara Polite is a naturally prepared Bio Stimulant to induce Resistance mechanism in crops when sprayed
- ✓ Sahara Polite Protects the Crop from all types of larval pests like Leaf Folders, Stem Borers, Fruit & Shoot Borers, Budworms etc.,
- ✓ Sahara Polite also induces good growth of the plant as it is naturally derived and gives rise to uniform growth and Maturity.
- ✓ Sahara Polite is compatible with all pesticides and hence, reduces the spraying cost to the farmers
- ✓ SaPolite is safe to Natural enemies of Crop pests so, can be incorporated in IPM practices.

**Crops**: Paddy, Cotton, Maize, Sugarcane, Chillies, Brinjal, Tomato, Bhendi, Jasmine, Mango and other fruits and vegetable crops.

**Dose**: 40 gm / ac.

**Pack Size** 100gm, 50 gm, 40 gm

## Sahara Di Kill

- ✓ Sahara Di Kill is a naturally acquired Bio Stimulant
- ✓ Sahara Di Kill helps in increasing the Resistance against many major larval pests of crops
- ✓ Sahara Di Kill provide greater protection to crops and helps in growth and development for uniform maturity
- ✓ Sahara Di Kill is advantageous in getting higher Yields with marvelous Quality
- ✓ Sahara Di Kill is safer to Crop, Environment and Natural Enemies of Pests
- ✓ Sahara Di Kill can be augmented in IPM practices.
- ✓ Sahara Di Kill is compatible with other pesticides which reduces the spray cost and time to the farmer

**Crops**: Cotton, Chillies, Brinjal, Bhendi, Tomato. Red gram, Black gram, Green gram, Ground nut, Soybean, Jasmine, Roses and other Fruits and Vegetable Crops.

**Dose**: 240+50 ml/ ac. Spraying should be done in such a way that, crop should be fully covered.

**Pack Size** 120ml + 50gm
